Gentlemen:

Attached are the original and duplicate original
of our Miscellaneous Work Agreement LP-MW-4051 dated April 5,
1974.

If the Contract meets with your approval, please
sign and witness both copies and return the original to us,
keeping the duplicate original for your files.

When rendering your invoice, in triplicate, please
indicate starting and completion dates and forward to the
undersigned at Texaco Inc., P. O. Box 200, Lockport, Illinois
60441.

Also, please execute the attached "Contractor's
Affidavit" and "Final Waiver of Lien" Form and return it
with your invoice.

Yours very truly,

P. Beall, Jr.

TEXACO Inc.
MISCELLANEOUS WORK AGREEMENT
 (Agreement With Independent Contractor)

Agreement No. LP-MW-4051
APRIL 5, 1974

AGREEMENT between LIQUID ENGINEERING CORP.

(a Corporation, ~~Partnership or Individual~~), of 391 East Kensington Ave., Chicago, Ill.
 (hereinafter called "Contractor"), and TEXACO Inc. (hereinafter called "Company"). 60606

Description of Work Contractor shall perform the following work (hereinafter called "said work") for Company at the Lockport, Illinois Plant:

NO. 19 PUMP HOUSE AREA
CLEAN SEPARATOR BAY AND COOLING TOWER BAY

Furnish supervision, labor, tools, equipment, materials and consumable supplies, including fuel requirements and perform the following:

1. Remove all sediment and debris from the North Bay of No. 19 Pump House Cooling Tower.
2. Remove all sediment and debris from the second bay from the north end of No. 19 Separator.
3. Haul the sediment and debris to the land farm area within Company's Lockport Plant as directed by Company Representative.

The Company Representative will be Mr. E. N. Boland.

Agreement Price Company shall pay Contractor for said work as follows:

The lump sum price of this Contract including taxes, insurance, overhead and profit shall be ONE THOUSAND THREE HUNDRED SEVENTY-FIVE DOLLARS AND NO CENTS (\$1,375.00) in accordance with Contractor's April 4, 1974 Verbal Quotation.

Period of Performance Contractor shall begin said work or about the 5TH day of APRIL, 1974, and fully complete the same on or before APRIL 10, 1974, unless otherwise agreed to in writing by the parties hereto,

Other Terms and Provisions This agreement and the attached exhibits contain all the terms and conditions agreed upon by the parties hereto with respect to the work to be performed hereunder and on all matters which in any way may affect said work, and no other agreements, oral or otherwise, regarding the subject matter of this contract shall be deemed to exist or to bind either of the parties.

Exhibit "A" Additional Provisions of Agreement,

~~Exhibit "C" Work Specifications —~~

~~Exhibit "D" Drawings and Sketches —~~

Exhibit "E" - Lockport's Instructions dated 10-30-72

Exhibit "G" - Compliance Clause.

Executed in LOCKPORT, ILLINOIS on the date first hereinabove written.

CONTRACTOR

LIQUID ENGINEERING

TEXACO Inc.

TEXACO INC.
 APPROVALS

Attached to and made a part of Agreement No. LP-MW-4051, dated APRIL 5, 1974**TEXACO INC.**
(Hereinafter referred to as Company)**ADDITIONAL PROVISIONS OF AGREEMENT****1. Contractor shall, at Contractor's expense:**

(a) Except as otherwise provided in this agreement, supply and pay for all labor, service, materials (which unless otherwise specified shall be new), supplies, tools, rigging, scaffolding, equipment, trucks, light, power, water, machinery, and all other things to be used, directly or indirectly, in the performance of or in connection with said work, and hold Company harmless against all claims, liens, and demands in connection therewith and against all consequent cost, expense, and damages;

(b) Fully protect, indemnify, and hold Company harmless against claimed or actual infringement or contributory infringement of any patent, or infringement of any copyright or trademark, or violation of any trade secret, arising out of or in connection with the performance of said work or the use of the materials or equipment furnished for or in connection with said work;

(c) Upon request by Company, furnish Company with such affidavits, receipts, waivers, releases, statements, and other evidence as Company may require to satisfy itself that all such claims, liens, demands, liability, cost, expense, loss, and damage, have been paid and discharged;

(d) Procure all permits (except building permits,) licenses, and other proper authorizations which may be required in the performance of said work, and pay all excise, license, occupation, and other taxes which may become payable to any authority by reason of said work, including all taxes upon the sale, use, storage, consumption, and/or fabrication of the materials, supplies, equipment, and other things furnished by Contractor.

(e) Perform and complete said work in a good and workmanlike manner satisfactory and acceptable to Company, and comply with all federal, state, county, and municipal laws, rules, regulations, and ordinances applicable to the performance of said work or incident thereto;

(f) At all times while on Company's premises observe and be subject to such rules and regulations as Company from time to time may promulgate for security reasons or for minimizing fire and explosion risks and for the maintenance or restoration of good order, and compel observance thereof by Contractor's employees and agents and others entering upon premises in the performance of or in connection with said work; said rules and regulations shall include among others, those now in force prohibiting smoking, lighting of matches, maintenance of open fires, intoxication, misconduct, and the like. Contractor shall take steps to assure that his employees or employees of his subcontractors at all times observe the reasonable rules and regulations while entering, leaving or on Company premises, and shall cause them to be removed from such premises upon their failure to comply.

(g) When necessary to break into or unflange lines, a prior written permit shall be obtained from proper Company authority, and sufficient time shall be given to operator in charge of lines so they may be cleared.

(h) When necessary to enter any vessel or tank, a written permit must be obtained from proper Company authority, and Contractor shall follow all stipulations set forth in this permit.

2. Contractor acknowledges that prior to the execution of this agreement Contractor has made sufficient examination and tests to determine the difficulties and hazards incident to the doing of said work, whether arising from the location of said work, conditions of the premises, proximity of said work to adjacent facilities, equipment, tanks, buildings, and other structures, or otherwise, and has determined to Contractor's satisfaction the nature and extent of all such difficulties and hazards.

3. Contractor shall not assign this agreement nor any monies to become due hereunder, or subcontract the whole or any part of said work, without Company's prior written consent. Company's consent to any such assignment or subcontract shall not relieve contractor or contractor's surety, if there be a surety, of any liability for the full and faithful performance of this contract according to its terms and conditions.

4. Contractor hereby authorizes Company to deduct from any amount payable to Contractor (whether or not arising out of this agreement) all amounts which may be payable by Contractor to Company, and also all amounts for which Company may become liable to third parties by reason of Contractor's acts in performing or failing to perform Contractor's obligations under this agreement, and in the event that any claim is made by a third party, the amount or validity of which is disputed by Contractor, or any indebtedness shall exist which shall appear to be the basis for a claim of lien, Company may withhold from any payment due, without liability for interest because of such withholding, any amount sufficient to cover such claim. The failure of Company to exercise such right to deduct or to withhold shall not, however, affect the obligation of Contractor to protect Company as elsewhere provided herein.

5. (a) Company shall have no voice in the selection, discharge, supervision, or control of Contractor's servants, representatives, or subcontractors, nor shall it have any right to direct or control Contractor in the method of performance or the means of accomplishing the desired result except to the extent that a particular method is specified in this agreement or in any specifications which are made a part hereof. Contractor shall, however, be responsible for the quality of the work done and materials used, and warrants that they will be first class in every respect. Company at all times shall have access to said work wherever it is in preparation or progress, and Contractor shall provide proper facilities for such access and for inspection by Company. Nothing herein contained shall be construed to relieve Contractor of performance of the obligations imposed hereby.

(b) Contractor agrees to employ local labor on the work involved in this contract, so far as possible, provided he may furnish his supervising personnel from elsewhere, and provided further that the contractor will not jeopardize Company's own local labor relations. The determination of whether union or non-union labor shall be utilized to perform such work shall be in the sole discretion of the Contractor or any sub-contractor employed on the job, and the Company shall be under no obligation to make any adjustment in the contract price should a change in the type of labor utilized by the Contractor or any sub-contractor be necessary in order to perform or complete the work.

(c) No person under 18 years of age nor any employee of Texaco Inc. will be employed by the contractor under this contract.

6. Company shall not be liable in damages or otherwise if, by reason of an act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, fire, or any governmental order, rule, or regulation, or any ordinance, it shall be delayed in, or prevented from, making the work site available to Contractor, or furnishing any materials, equipment, facilities, services, etc., provided to be furnished by it hereunder.

7. In the event Contractor fails to commence said work on the day herein provided, or after such commencement abandons said work or for any reason suspends or refuses to continue it or at anytime refuses or neglects to supply a sufficient number of properly skilled workmen for a period of five (5) days (unless prevented from commencing or continuing said work by an Act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, or any governmental order, rule, or regulation, or any ordinance, or by any failure or delay on the part of the Company as described in paragraph (6)) or commits a breach or default of any of its duties, liabilities, or obligations hereunder and fails to cure or remedy such breach within five (5) days after written notice thereof by Company to Contractor, Company shall have the right, at its option, to take over said work and all materials and supplies furnished by Contractor and complete said work, or cause same to be com-

pany's drawings which were attached to his signed copy of the contract, as well as any other blueprints furnished.

(b) Contractor will be responsible to Company for the return of all gates passes and badges issued by the Company to Contractor's employees; and, upon completion of work, any lost badges and/or gate passes will be paid for by the Contractor at the rate of \$1.00 each.

15. If any payment provided for hereunder is to be made on the basis of Contractor's cost or other flexible billing basis:

(a) The Company shall have the right to audit Contractor's books, receipts, invoices and records pertinent to such costs, and Contractor agrees to maintain such documents for a period of at least two (2) years from the date such costs were incurred and to make them available to the Company at any reasonable time or times within the two-year period for the Company's use in making such audits, and

(b) Contractor shall obtain from each and every subcontractor or person performing work at Contractor's request a similar agreement for preservation of their books, receipts, invoices and records pertinent to their costs and charges and the right of the Company to examine and audit same at all reasonable times during such two-year preservation period.

16. A waiver on the part of the Company or Contractor of the breach of any term, provision, or condition of this contract shall not constitute a precedent, nor bind either party hereto to a waiver of any succeeding breach of the same or any other term, provision or condition of this agreement.

17. This contract shall be governed in all respects by the laws of the State where the work herein contracted for is actually performed.

18. Contractor shall deliver to Texaco Inc. prior to any interim payment and prior to final payment a sworn affidavit, in form complying with Illinois Revised Statutes, Chapter 82, Section 5, disclosing that no subcontractors and/or materialmen remain unpaid.

19. Except for tax exempt material for pollution control facilities the following statement shall appear on all invoices "All Applicable Sales/Use Taxes are Included in the Above Price".

II. COMFORT FACILITIES AND BUILDINGS (cont'd.)

- F. Contractor must provide drinking water facilities for his employees as required. Company will furnish water for drinking purposes at nearest suitable existing outlet.
- G. Company will furnish exhaust steam, approximately 15 psig, free of charge at its source for use by Contractor in the heating of his office or other buildings. Contractor must make any required connections and do all incidental pipework at his expense.
- H. Any temporary buildings or other facilities which the Contractor erects must be provided with fire protection facilities to the satisfaction of the Company's Fire Marshal.

III. EQUIPMENT AND VEHICLES ENTERING THE PLANT

- A. Entrance to Company's Plant to the job site will be granted as required for all Contractor's vehicles, tools, and equipment necessary for the performance of the job.
- B. Contractors' employees will not be allowed to drive personal cars into the Plant except for a limited number of key personnel, subject to approval of the Employee Relations Department through Company's representative.

IV. MATERIALS HANDLING

- A. Hauling and loading of materials to job site from Company's warehouse or field storage areas will be the responsibility of the Contractor.
- B. Upon completion of work, all unused Company Materials will be returned to Company's warehouse by Contractor.
- C. Contractor shall supply shipping tickets for all materials which, according to the agreement, he is to furnish.
- D. The Contractor must clear all shipments, either into or out of the Plant, through the Storehouse or Company representative, of all tools, equipment, and/or materials which he is to provide under the provisions of the contract.

CANCELS 2-24-71

PART OF AGREEMENT NO. LP-MW-_____

These instructions are intended to serve as a guide and ready reference for the Contractor while performing work for Texaco Inc., to be referred to as the Company, and must be adhered to by all Contractor Forces.

I. SAFETY AND WORK PROCEDURES

- A. Before beginning work, the contractor or his qualified supervisor shall inspect premises, location of work, and proximity to adjacent facilities to determine to his satisfaction the nature and extent of difficulties and hazards. Contractor shall acquaint himself with Company regulations and safety rules.
- B. Contractors shall require their employees and their subcontractor's employees to observe all Company rules governing proper conduct and safety while on Company property, the most important of which are:

1. SMOKING NOT ALLOWED in the Plant except in locations designated by the Plant Manager during Contractors' authorized lunch periods and work breaks.
2. Lighting Fires, Burning, Welding and Entry of Vessels of Stacks shall not be done unless specifically authorized in writing each shift such work is performed. Forms R-241 "Hot Work Permit" and R-241A "Safe Work Permit" shall be used for proof of the above authorization, and all instructions therein shall be followed exactly with no deviation permitted.
3. Operation of Cranes or their movement requires approval of Company representative, and a Company lead man must be used when moving crane in Plant. The Company representative will provide a "Hot Work Permit" prior to Contractor's moving or operating the crane. A safety man must be used to see that the boom, cable, and load have safe clearance from all electrical wires as specified in the "Hot Work Permit". Refer to "Instructions to Contractors for Movement and Operation of Cranes and Heavy Equipment within Refinery by Contractors' Employees" dated August 15, 1972.

I. SAFETY AND WORK PROCEDURES (cont'd.)

B. (cont'd.)

6. In Case of Explosion or Fire Contractors' employees are to be instructed to:

(a) Report to their Foreman at once at a point well removed from the scene.

(b) Keep out of the way unless asked for help.

7. Cameras are not permitted in the Plant other than those owned by the Company.

C. Contractor shall suspend work when notified by any Company supervisor that his actions are exposing Company personnel or equipment to unreasonable hazards. Contractor will then consult the Company representative in order to correct the situation before resuming work.

D. Contractor must provide first aid facilities as may be needed for his employees. Except in the case of serious accidents where the employee's life or health may be seriously endangered due to lack of prompt attention, Contractors' employees are not to be taken to the Company's First Aid Room for treatment.

II. COMFORT FACILITIES AND BUILDINGS

A. Contractors' employees cannot use Company's lunch rooms, locker rooms, toilet rooms, wash-up facilities, drinking fountains, or any facilities which the Company has provided for the express use of its own employees.

B. Contractors' employees must keep out of Company's buildings and operating units of every type whatsoever unless they are required there for the purpose of performing the work outlined by the contract.

C. Contractor must provide toilets as required for use of his personnel. Chemical and flush-type toilets are acceptable. If flush-type are provided, Contractor must provide a septic tank and a drain line to a location acceptable to Company's representative. If chemical toilets are used, Contractor

REVISED 10-30-72
CANCELS 2-24-71

VI. GENERAL LIABILITY AND INSURANCE

- A. Chemical cleaning contractors shall take out and at all times maintain adequate Public Liability Insurance, protecting Contractors liability by law from bodily injury and property damage. Contractors' insurance in this category shall be specifically endorsed to include liability for damage to Company property whether or not the liability arises while the property is in the Contractors' care, custody and control.

VII. COST-PLUS AND HOURLY RATE CONTRACTS ONLY

Following does not apply to Unit Price or Lump Sum Contracts:

- A. All Contractors' employees entering the Plant will be required to punch clock cards.
- B. Contractor shall submit a daily distribution of each employee's time worked, and each such sheet shall be endorsed by the Company's Representative. The actual portion of the project on which each employee worked shall be reflected on these time sheets.
- C. Invoices shall be rendered, in triplicate, by estimate code sections to cover labor, equipment rental and tool charge on the same invoice, each section being itemized, and be accompanied by a copy of Contractors' payroll for the payroll invoiced.
- D. All labor and equipment rates must be provided for in the Agreement. In the case of Union Scale Labor Rates, official verification of such rates must be furnished by the Contractor to the Accounting Department.
- E. All tools and equipment purchased by the Company under the terms of "Cost-Plus" contracts shall be retained by the Company when the job is complete.

VIII. DOCUMENTS AND RELATED INFORMATION

- A. The drawings or other documents processed in relation to this Contract, and the information therein contained, are the property of Texaco Inc. which has furnished them in confidence upon the understanding and condition that all persons, firms or corporations receiving such drawings and information shall by the act of receiving them be deemed to have agreed: To make no copy,
